Sub: CRM Plant Project at Hyderabad

M/s Prathit Automation Technologies is working with us for different Instrumentation / PLC projects. During the year 2005-2006 PAT has successfully completed our CRM project at our Hyderabad plant, involving PLC configuration/ programming and commissioning of the plant.

The job executed by PAT is of good quality and services provided are satisfactory. PAT engineers demonstrated professional approach in their work. We are satisfied with their services. We wish them success in their business plan and has no hesitation to recommend their name for plant automation projects.
